OFFICE POLICY

It is my responsibility to inform this office of any changes in my health status, insurance or my contact information.

– **INSURANCE:** I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. All professional services rendered are charged directly to the patient (me) and are my responsibility. We require that your examination day and 1st adjustment charges be paid in full when services are rendered and until insurance coverage has been verified. If your yearly deductible has not been met, if any services are denied or non covered, if your coverage becomes inactive or you have met the maximum benefit fees for services will be your responsibility. In the event that your insurance check is mailed to you we expect you to present it to this office if there are charges owed.

– **CASH:** Fees are paid at the time of service, unless special arrangements have been made in advance. If special arrangements are made and you become inactive by discontinuing your care, your entire unpaid balance will be due immediately and may be charged in full to the credit or debit card on file if other arrangements are not made. This applies to all plan types except Auto Injury and Work Injury claims.

– **WORKMAN’S COMPENSATION:** Report your accident to your employer, bring in the necessary insurance information, and complete and sign the appropriate forms for billing by the second visit. We will bill your insurance directly. In the event you receive the insurance check, we expect you will present the check to our office.

– **AUTO INJURY:** We require you provide us with the accident report, your car insurance, health insurance, liable parties insurance, and attorney if applicable. Until necessary insurance information is gathered and verified for chiropractic care, you will be required to pay for your care. We will bill your insurance directly after verification of coverage. All charges are ultimately the responsibility of the patient or guardian in the event insurance doesn’t pay. If you receive the insurance check, we expect you will present the check to our office. By signing this form you are authorizing our office to bill all possible insurance available including your auto insurance, the third party insurance and your health insurance. By signing you are authorizing the insurance companies involved to pay directly to us to cover any and all charges incurred for your care in our office for this injury.

Any treatment remaining unpaid after (60) days will bear interest at the highest legal annual rate of interest allowed in Idaho until paid. If the office has to hire an attorney, collection agency or use outside means of collecting past due bills, you must reimburse the office for any attorney fees, court costs or collections spent in collecting the bill.

**AUTHORIZATION TO RELEASE INFORMATION**

I authorize you to release any information deemed appropriate to any insurance company, attorney or adjuster in order to process my claims for reimbursement, and I release you of any consequence thereof. We may disclose your personal health information (PHI) to family members of close friends whom accompany you if we determine it’s in your best interest so we may provide you with the best care possible. We may also disclose your PHI to a family member or someone else who helps pay for your health care. You have the right to request a restriction in how we use your or disclose your PHI.

**PRIVACY PRACTICES**

I have received or reviewed the privacy practice notice (4 pages) for Main Health Solutions, and understand the situations in which this practice may need to utilize or release my medical records. I also understand that I agreed to the use of those records when I initially applied for care at this office (my Initial Intake Paperwork) on my first visit, whenever that may have occurred. I understand that this office will properly maintain my records, and will use all due means to protect my privacy as outlined in this privacy practices statement.

**OPEN ENVIRONMENT**

We keep an open environment in the office to create a sense of warmth, family, healing, and education. During adjustments, we do not go over private information; however, you will be in an open area where others may see you and/or overhear conversation. If there is a need to discuss something of a personal or private nature, you should request a special appointment in one of our private rooms. A doctor or trained staff member will speak with you about your condition, concern or other matters.

**TERMS OF ACCEPTANCE**

We DO NOT diagnose conditions or diseases, other than vertebral subluxations.  
We offer NO treatment of conditions or disease, other than vertebral subluxations.  
We promise NO cure from any condition or disease.

**OUR GOAL**

To locate, analyze and correct spinal interference to the nervous system. The purpose of the nervous system is to control and coordinate all bodily function. Interference to this master system automatically produces improper function in the body. The SUBLUXATION is a detriment to life and health. Correction of the subluxation through specific chiropractic adjustment, allows the body to function at its optimal level. This allows innate healing power of the body to work at a maximum efficiency to restore, maintain and promote natural healing.

I, \_\_\_\_\_ have read the above statement and completely understand it. I do undertake chiropractic health care on this basis. (Print Name)

### REGARDING: Chiropractic Adjustments, Modalities, and Therapeutic Procedures:

I have been advised that chiropractic care, like all forms of health care, holds certain risks. While the risk are most often very minimal, in rare cases, complications such as sprain/strain injuries, irritation of a disc condition, and although rare, minor fractures, and possible stroke, which occurs at a rate between one instance per one million to one per two million, have been associated with chiropractic adjustments.

Treatment objectives as well as the risks associated with chiropractic adjustments and, all other procedures provided at **Main Health Solutions** have been explained to me to my satisfaction and I have conveyed my understanding of both to the doctor. After careful consideration, I do hereby consent to treatment by any means, method, and or techniques, the doctor deems necessary to treat my condition at any time throughout the entire clinical course of my care.
